Summary

Computer Science student with experience working on software development projects, which have sparked my interest in the field and motivated me to explore learning opportunities both within and outside the university. As I approach graduation, I'm looking for opportunities to apply my knowledge, expand my skill set, and grow as a professional.

Education

Federal University of Rio de Janeiro (UFRJ) – B.Sc. in Computer Science (expected 12/2026)

Experience

Undergraduate Researcher – GT Sokrates.AI *(Oct 2024 – Present)*

- Built a conversational AI learning platform. Responsible for developing end-to-end features using FlutterFlow (frontend) and Python (backend) and software test automation with Selenium.

Extension Project – PROMOVE UFRJ *(Dec 2022 – Mar 2024)*

- Built the official UFRJ university restaurants app using TypeScript and React Native.

Skills

PROGRAMMING LANGUAGES
C, Python, C#, JavaScript, TypeScript
DATA
SQL, PostgreSQL
FRAMEWORKS and LIBRARIES
React, React Native, Angular, FastAPI
WEB DEVELOPMENT
HTML, CSS
TOOLS and TECHNOLOGIES
GIT, Docker, FlutterFlow, Power BI
LANGUAGES
Portuguese(BR), English (advanced)
